Registration of Owners

18. The Directors of the INHSC shall maintain a Register of Point to Point Owners. An Owner may only be Registered by application to the Office of the INHSC on the prescribed form and signed by the applicant. If at the time of, or subsequent to the date of Registration, the application is found not to have been signed by the applicant, the Registration shall

automatically become void. All other Registrations relating to the ownership of Horses for that person at that time or subsequently shall be cancelled.

In considering an application for Registration, the Directors of the INHSC shall be entitled to seek such information or to make such enquiries as they shall consider relevant. If at the time of, or subsequent to the date of Registration, such information as may be supplied is found to be incorrect or misleading, the Registration may be cancelled as may all other Registrations relevant to that Registration.

If a Registration is cancelled for any reason, the Registration cannot be re-instated and a new application for Registration will be necessary. In such instances, the Directors of the INHSC shall determine what further action, if any, they deem to be appropriate. The Directors of the INHSC shall have complete discretion whether to approve and register any person as an Owner, save that they shall not approve and register any person unless they are satisfied that they are not a Disqualified Person.

Registration shall be effective once the completed application form has been processed at the Office of the INHSC. If any Registered Owner shall become a Disqualified Person, the Registration shall become void and if the Directors of the INHSC shall register the name of a Disqualified Person, the Registration shall be void.

The Registration of a Registered Owner shall be automatically renewed annually unless the Directors of the INHSC shall otherwise determine.

Nothing in these Regulations shall prevent the personal representative of a deceased (Registered) Owner running a Horse solely under the description "Executor(s), Administrator(s) or Personal Representative of deceased" for the remainder of the current Point to Point Season. Unless otherwise determined by the Directors of the INHSC a personal representative need not apply to be put on the Register provided that the deceased was a Registered Owner at the time of death.

- (a) the name and address of the primary owner.
- (b) the signatures of all partner(s) must be submitted before the Registration is valid.

A collective Multiple Ownership name, which must be approved by the Directors of the INHSC may appear on the racecard as the Owner, but such a Multiple Ownership name will merely denote the collective ownership of the Horse. The Multiple Ownership name shall be deemed unique to the particular named members for the period the Multiple Ownership Registration is in existence.

If at any time after a Multiple Ownership has been Registered there is any variation in the membership, written notification on a form approved for such purpose, must be lodged at the Office of the INHSC for approval. Such notification must be signed by any outgoing or incoming member and witnessed by the Primary Owner. Any such alterations to a Multiple Ownership shall apply to all Horses Registered in that Ownership's name.

A Multiple Ownership shall only be entitled to exercise its powers of an Owner through its Primary Owner, who shall for the purposes of these Regulations be treated as the sole Owner, and be subject to all the liabilities, duties and privileges of ownership. Other than running a Horse under the name of a Multiple Ownership, no privilege of ownership shall attach to any member other than the Primary Owner.

Without prejudice to the foregoing the Directors of the INHSC may at their absolute discretion at any time and without assigning any reason therefore withdraw their approval of a Multiple Ownership or any change to it and cancel any such Registration or remove any member from that Registration in the event of that person being found to be a Disqualified Person.

The Directors of the INHSC takes no cognisance of any disputes arising between the partners of a Multiple Ownership Registered in accordance with these Regulations.

- (ix) Should the tapes be broken by a Horse or its Rider or should the starter consider for whatever reason that a fair start has not been effected, they shall declare it a false start and they shall signal this by waving a red flag and communicating such by radio communication to the Fence Marshalls positioned at each fence. On this signal the Fence Marshalls shall raise and wave an orange flag to denote a false start. The Riders shall thereupon return to the start. The starter's decision as to the fairness of the start shall be final.

- (x) If a start shall be declared a “false start” by the starter, the Horses shall be started again as soon as practicable. In the event of any Horse completing a circuit of the course from a start declared to be a “false start” the Horse shall by order of the Acting Stewards be withdrawn from the race.

Note: Completing a circuit of the course shall be determined as a Horse having jumped all of the fences in the first circuit.

- (xi) In all races a Rider shall not:
- (a) Proceed past the marker poles positioned at the start or attempt to line up or take a position for the start before being instructed to do so by the starter.
 - (b) Put a Horse into a trot or canter with a view to taking any advantage before the race is started.
 - (c) Turn or face their Horse backwards from the starting line, having been instructed by the starter to come forward.
 - (d) Hang behind the other runners unless they have informed the starter that a Horse is to be “dropped in”.

- (xii) In all races a Rider shall:
- (a) Take all reasonable measures to take part in the race when it has been started.
 - (b) Comply with any instruction from the starter.
 - (c) Comply with the orange flag signal from the Fence Marshalls denoting a false start.

The Acting Stewards shall impose a penalty in accordance with the penalty guidelines as approved by the Directors of the IHRB for any breaches of this Regulation.

Starter

31. The starter shall:

- be clearly identified with an orange bib
- mount the rostrum after the runners have arrived at the start

- inform all Riders concerning the procedure for effecting a fair start
- have at least one assistant who can attend to the needs of Horses and Riders
- not be involved in tightening girths
- ensure that coloured marker poles are positioned a reasonable distance back from the starting tape mechanism
- alert Riders that the area between the marker poles and starting tape mechanism shall be considered out of bounds until they call the

runners forward at a walk and in a controlled manner to effect a fair start.

The Acting Stewards shall impose a sanction in accordance with the penalty guidelines as approved by the Directors of the IHRB, should a Rider be found to have entered this area prior to being called forward by the starter.

Running

32. (i) When interference has been caused by:

- (a) Dangerous riding in any part of a race the Horse shall, on an objection under Regulation 47 which under Rule 264 includes a Stewards Enquiry, be disqualified and the placings amended.
- (b) Careless or improper riding or by accident in any part of a race the Horse shall, on an objection under Regulation 47 which under Rule 264 includes a Stewards Enquiry, be placed behind the Horse or Horses with which it has interfered if the Acting Stewards are satisfied that the interference improved its placing in relation to the Horse or Horses with which it interfered. If they are not so satisfied, they shall overrule the objection and order that the placings shall remain unaltered.

With regard to (b) above, when deciding whether they are so satisfied the Acting Stewards shall make no allowance for any ground which the incident may have cost the Horse causing the interference.

- (ii) For the purpose of the application of (i) (b) the placing of a Horse interfered with shall be that decided by the Judge.
- (iii) The Rider of any Horse who, in the opinion of the Acting Stewards has been guilty of dangerous, careless or improper riding at any time whilst on the racecourse and whether before or after any race shall be guilty of an offence.
- (iv) For the purpose of this Regulation the following definitions apply:

1. Dangerous Riding

A Rider is guilty of dangerous riding if they cause serious interference by:

- (a) purposely interfering with another Horse or Rider, or
- (b) riding in a way which is far below that of a competent and careful Rider and where it would be obvious to such a competent and

careful Rider that riding in that way was likely to endanger the safety of another Horse or Rider.

2. Careless riding

A Rider is guilty of careless riding if they fail to take reasonable steps to avoid causing interference or cause interference by inattention or misjudgement.

3. Improper riding

Improper riding covers cases of improper use of the whip or striking other Riders or Horses and may also include other forms of misconduct in the course of riding such as riding that would be dangerous as defined above but for the fact that it did not cause serious interference.

- 33.** (i) (a) If the Horse runs the wrong side of a direction post, flag or doll, or misses a fence its Rider shall turn back and ride the course correctly from such point or they shall pull up.

They shall not otherwise continue in the race, nor shall they rejoin the race during a later circuit of races run over more than one circuit of the course. Any Horse doing so shall be disqualified and its Rider reported to the Acting Stewards.

- (b) During the running of a race a Rider who has parted company with their mount at an obstacle or at any other section of the course shall not re-mount and continue to race. Should they do so, the Horse shall be disqualified on objection in accordance with Regulation 47, the placings amended, and the Rider shall be liable to sanction by the Acting Stewards or the Referrals Committee.
- (c) In courses where fences are constructed out of line with existing boundaries the spaces between the fences shall be considered as fields or enclosures for the purpose of these Regulations.

(ii)

- (a) If a Horse refuses any fence in a race, the Rider shall not continue to race. If they do so, the Horse shall be disqualified on objection in accordance with Regulation 47, the placings amended, and the Rider shall be liable to sanction by the Acting Stewards or the Referrals Committee.
- (b) A Rider must pull up their Horse whenever it is lame or injured, it has no more to give or has tailed off through fatigue or has a problem which is materially affecting its performance. A Rider found by the Acting Stewards to be in breach of this

Regulation shall be liable to sanction in accordance with Regulation 22 (v).

- (iii) If a race has been run by all the Horses over a wrong course or distance, it shall be void provided always that the Acting Stewards for special cause may declare the race valid.
- (iv) When a warning disc has been placed in a fence in accordance with the provisions of Regulation 20, the fence shall not be jumped and any Horse doing so shall be disqualified on objection in accordance with Regulation 47, the placings amended, and the Rider shall be liable to sanction by the Acting Stewards or the Referrals Committee.

When a situation arises at a fence which causes the Fence Marshalls, for reason of safety, to direct the runners to by-pass the fence on the side which has not been designated for by-passing, the side originally designated for by-passing shall be deemed to be a wrong course and any Horse which bypasses on that side will be disqualified on objection in accordance with Regulation 47, the placings amended, and the Rider shall be liable to sanction by the Acting Stewards or the Referrals Committee.

Fence Marshalls shall decide on what action to take in such an emergency situation.

- (v) Every Horse which runs in a race shall be run on its merits and the Rider of every Horse shall take all reasonable and permissible measures throughout the race to ensure that their Horse is given a full opportunity to win or of obtaining the best possible place.
- (vi) Mares shall not be allowed to run in a Point to Point Steeplechase after 120 days of pregnancy. A breach of this Regulation shall be deemed an offence, and the Handler shall be liable to sanction by the Referrals Committee.
- (vii) When a pink and yellow flag is raised during the course of a race, it shall signal the race to be stopped in the interest of safety and the race shall be declared void. Any Rider who ignores the stop race flag shall be liable to sanction in accordance with Regulation 22 (v).

Walking Over

- 34.** In walking over for a race, in no case shall it be necessary for a Horse to “walk-over” the entire course, but if at the time fixed for weighing out only one Horse shall have been weighed out, that Horse shall be ridden past the Judge’s podium and shall then be deemed the winner.

Dead Heats

- 35. When Horses run a dead-heat, the dead-heat shall not be run off.
- 36. Each Horse that divides a prize for first place shall be deemed a winner.
- 37. When two Horses run a dead-heat for first place all prizes to which first and second Horses would be entitled shall be divided equally between them, and this principle shall be observed in dividing the prizes whatever the number of dead-heaters.
- 38. Deleted.
- 39. If the dividing Owners cannot agree as to which of them is to have a cup or other prize, which cannot be divided, the question shall be determined by lot, by the Acting Stewards, who shall decide what sum of money shall be paid by the Owner who takes such cup or other indivisible prize to the other Owner or Owners.

Weighing In

- 40. Immediately after pulling up, the Riders of the Horses placed by the Judge in each race must ride their Horses to the place appointed for unsaddling which should be as near as possible to the weigh in area. The other Riders may dismount within a reasonable distance.
- 41. Every Rider including those who have failed to finish the race, must present themselves to be weighed by the Clerk of the Scales at once and must bring with them to the scales everything that the Horse has carried in the entirety of the race except as provided in Regulation 28.
- 42. When the Riders have weighed in to the satisfaction of the Clerk of the Scales at not less than the weight at which they weighed out, except for the allowance under Regulation 44 (i), the Acting Stewards shall authorise the Winner All Right announcement on the public address system and/or by any other means available.

Provided they shall not authorise this until:

- (a) The period allowed for objections, under Regulation 47, has lapsed.
- (b) Any objections which may have been lodged on grounds mentioned in Regulation 47 have been decided.
- (c) No objection on any grounds other than those mentioned in Regulation 47 shall be entertained prior to the Winner All Right announcement. After the Winner All Right announcement has been made, no alteration shall be made to the winner or placed Horses.

When an objection has been lodged, an announcement should be

made on the public address system stating briefly the grounds of the objection and when an objection has been determined the Acting Stewards decision shall be announced.

- (d) Handlers (or their representatives) who have had runners in a race and Riders who have ridden in a race, must remain at the Point to Point Meeting and available to the Acting Stewards until 10 minutes after the Winner All Right announcement has been made unless permission has been granted by the Acting Stewards.
- 43.** (i) Should a Rider be too ill to weigh in, their Horse shall not be disqualified on that account, provided that the Rider weighed out at not less than their proper weight.
- (ii) Any Rider who has parted company with their mount at an obstacle or at any other section of the course during the running of a race shall report as soon as possible to the IHRB Medical Officer. Failure to do so shall leave the Rider subject to sanction by the Acting Stewards or the Referrals Committee.
- 44.** (i) If a Rider cannot draw the weight at which they weighed out, the Clerk of the Scales shall allow the Rider 2lbs. If the Rider cannot then draw the weight, the Horse will be disqualified, and the placings amended.
- (ii) A Rider who weighs in at more than 4lbs above the correct weight shall be reported to the Acting Stewards and may be subject to sanction in accordance with Regulation 22 (v). A Horse shall not be disqualified from a race in respect of any overweight carried.
- (iii) If a Rider does not present themselves to weigh in, their Horse shall be disqualified, and the placings amended, unless they can satisfy the Acting Stewards that there were justifiable reasons for such failure to present and provided that the Rider weighed out at not less than their proper weight.

The Acting Stewards shall impose a sanction in accordance with the penalty guidelines as approved by the Directors of the IHRB for any breaches of this Regulation.

- (iv) If a Horse carries less than the weight it should carry in accordance with the conditions of the race, it shall on an objection under Regulation 48 be disqualified and the placings amended.

Objections

- 45.** Objections shall be determined by the Acting Stewards and their decision shall be subject to appeal to the Appeals Body, so far as it relates to points involving the interpretation of these Regulations and Rules, or to any question other than a question of fact, on which there shall be no appeal, unless by consent of the Directors of the IHRB.

- 46.** Every objection shall be in writing and must be accompanied by a deposit of €100 and must be signed by the Owner, Handler or the Rider of some Horse engaged in the race, and must, in cases coming under Regulation 47 be made to the Clerk of the Scales and in other cases to The Registrar of the INHSC.

An objection may also be made without deposit by an Acting Steward or an Official of a Point to Point Meeting in their official capacity.

- 47.** An objection to a Horse on the grounds:

- (a) of interference; or
- (b) of the Horse not having run the proper course; or
- (c) that an incorrect Horse ran; or
- (d) of any other matter occurring during the running of a race; or
- (e) of any matter specified in Regulation 33 (i)(b), (ii)(a) or 44 (iii); or
- (f) that the Rider could not draw the weight at which they weighed out in accordance with Regulation 44 (i)

must be made at or before the Riders of the winner and placed Horses have weighed in, or before the Acting Stewards have authorised the Winner All Right announcement unless under special circumstances the Acting Stewards are satisfied that it could not have been made within that time.

- 48.** An objection must be made within one month after the conclusion of the Point to Point Meeting on the grounds:

- (i) (a) of mis-statement, omission or error in the entry under which a Horse has run; or
- (b) that the weight at which a Rider weighed out was less than the correct weight; or
- (c) that the Horse or Rider was not qualified under the conditions of the race; or
- (d) that the Judge made an error in the placing of any Horse in a race

An objection must be made within two years after the conclusion of the Point to Point Meeting on the grounds:

- (e) that the Horse which ran was not the Horse or of the age which it was represented to be at the time of entry; or
- (f) that the Horse has run in contravention of the Regulations relating to Unrecognised Meetings and suspension from running; or
- (g) that at time of running the Horse was ineligible to be entered or run in any race; or
- (h) that the Horse or its Owner was disqualified by reason of any default entered in the Forfeit List.

An objection under Regulation 48 (i) may not be made until after the Winner All Right announcement has been made.

Pending the determination of an objection, any prize which the Horse objected to may have won or may win in the race, shall be withheld until the objection be determined.

- (ii) All objections under Regulation 48 must be made to The Registrar of the INHSC.
 - (iii) An objection on any other ground not specified in the foregoing section of this Regulation, must be made within one month of the race being run, save in the case of fraud, when there shall be no limit to the time for objection, provided the Referrals Committee or the Appeals Body are satisfied there has been no unnecessary delay on the part of the objector in the making of the objection.
- 49.** When an objection is made by an Official under Regulation 48 (i) it shall be made without deposit and, when made by a Senior Racing Official under these Regulations and Rules, the matter shall be referred directly to the Referrals Committee.

Appeals

- 50.** The decision of the Acting Stewards on any matter may be the subject of an appeal to the Appeals Body by any Owner, Handler or Rider of any Horse running in the race or any person dealt with by, or making a complaint to, the Acting Stewards.

Notice of appeal, accompanied by a deposit of €500 and giving the specific reasons for the appeal signed by the appellant, must be given within 48 hours of the decision to The Registrar of the INHSC. Such appeal shall be by way of a full-rehearing and the decision of the Appeals Body shall be final.

The Appeals Body may confirm or reverse the decision of the Acting Stewards wholly or partly as they think fit but they cannot increase any

penalty imposed beyond the limits imposed on the Acting Stewards of a meeting under Regulation 22.

57.**Riders Declared Unfit To Ride**

1. All Riders, with riding engagements at a Point to Point Meeting who are on the Alert Sheet should be cleared by the Chief Medical Officer in advance of being declared to ride and must present themselves to the IHRB Medical Officer on duty for clearance prior to their first ride on the Raceday.
2. A Rider on the Alert Sheet shall not present themselves to be weighed out for or ride in any Point to Point Steeplechase until they have been examined and declared fit to ride by the Chief Medical Officer or an IHRB Medical Officer.
3. If a Rider suffers a fall or is injured in any way they must present to the IHRB Medical Officer before being weighed out for any subsequent race or before leaving the Point to Point Meeting. If through confirmed incapacity the Rider cannot do this the IHRB Medical Officer will make alternative arrangements for recording details of the injury suffered.
4. For certain injuries or other medical conditions a medical report from a medical specialist may be required to be submitted to the Chief Medical Officer before the Chief Medical Officer can make an assessment as to the fitness of the Rider to resume race riding.
5. If a Rider is of the opinion that they are fit to resume riding before the date specified by the Chief Medical Officer, other than in cases of concussion, an application may be made to the Chief Medical Officer for the matter to be referred for an independent medical opinion.
6. As the result of illness, injury or accident a Rider may be restricted from riding in races until a stated period has elapsed, following a recommendation to that effect by the Chief Medical Officer or an IHRB Medical Officer to the Acting Stewards and a Rider shall not be permitted to ride until such time as the Chief Medical Officer has confirmed medical clearance. On such date that the Rider is deemed fit to ride their name will be removed from the Alert Sheet.
7. Special protocols for dealing with concussion are set out below: -
 - (a) Whenever a Rider suffers a suspected concussion, the IHRB Medical Officer in attendance at the racecourse or at the Point to Point Meeting will carry out a standardised medical assessment.
 - (b) If a diagnosis of concussion is made the IHRB Medical Officer will report the matter to the Acting Stewards. The Acting Stewards shall restrict the Rider from riding in accordance with Rule 14 (i) (d). The Rider may present themselves for a two part post-concussion evaluation but

only after a minimum six day period has elapsed, such period commencing on and from the day of the diagnosis. The report from the post-concussion evaluation will be sent to the Chief Medical Officer

- (c) If the Neuro-psychological tests are judged by the testing psychologist to be abnormal (i.e. a failure to return to baseline levels in those with a baseline test or a significant deviation from age and education related norms in those without a baseline test) or if a Rider fails the sports physician assessment, then the Rider will be restricted from riding by the Chief Medical Officer until such time as the Chief Medical Officer is satisfied, following receipt of the results of further post-concussion evaluations that it is safe for the Rider to resume riding. The Rider may only present for such a test within a time frame permitted by the Chief Medical Officer. The Rider may continue to present for further post-concussion evaluations after intervals of 14 days.

8. Neuro-psychological (NP) testing

Testing must take place at IHRB approved clinics, which are at 3 regional centres and takes about 60 minutes to complete. The centres are located in private (independent) clinics or G.P. surgeries and trained nurses at each location carry out the NP testing on behalf of the IHRB. Should none of the approved clinics be operating during the Christmas/New Year or Easter periods, a Rider may arrange to have the testing carried out in the United Kingdom in a clinic approved by the IHRB and the evaluation carried out by a Clinical Neuropsychologist approved by the IHRB, who shall submit the results of the evaluation to the Chief Medical Officer. Each Rider is required to complete a computerised test as approved by the Chief Medical Officer together with a series of pen and paper tests (SCOLP, Digit Span, SDMT: Symbol Digit Modalities Test, Colour Trails, STROOP). The various tests are then evaluated by one of a team of Clinical Neuropsychologists retained by the IHRB and the results are forwarded to the Chief Medical Officer. The Rider must also present for assessment by an IHRB approved sports physician who shall report the results of such assessment to the Chief Medical Officer. The Rider will be declared fit to ride and removed from the Alert Sheet should the Chief Medical Officer be satisfied with the results of the test and assessment of the Rider.

9. Frequency of Neuro-psychological (NP) baseline testing

All persons holding a Jockey's licence, or a Qualified Riders permit will be required under this Regulation to complete the Neuro-psychological baseline test once every two years and following any diagnosis of concussion, a post-concussion evaluation. Failure to do so may result in

the suspension of the Rider's licence/permit by the Licensing Committee, following a report from the Chief Medical Officer. Notwithstanding the above requirement a person diagnosed with concussion within the two-year period will also be required to repeat the Neuro-psychological baseline test before the time of the annual renewal of the licence/permit.

10. Post-concussion evaluation

A post-concussion evaluation shall consist of a neuro-psychological test carried out in accordance with Paragraph 7 (c) above and a physical examination by a sports physician appointed by the IHRB, the results of which shall be forwarded to the Chief Medical Officer. In addition to this test and examination the Rider may be required by the Chief Medical Officer to attend for examination before a consultant neurologist or neurosurgeon.

When determining whether or not excessive force was used by a Rider, the Acting Stewards may take into account if a Horse was marked and the manner in which the whip appears to have been used.

- (g) The hitting of a Horse with excessive frequency.

When determining whether or not the whip was used with excessive frequency the Acting Stewards shall take into account if the Rider appeared to have hit their mount with the whip 9 times or more during a race when their whip-hand had left the reins.

- 6. The Acting Stewards shall impose a penalty in accordance with the penalty guidelines as approved by the Directors of the IHRB.
- 7. In the investigation of alleged breaches of this Regulation, it is recommended that the IHRB Veterinary Officer is asked to clinically examine the Horse.

- (iv) Dope Tests shall be presumed to have been conducted in accordance with the WADA International Standards for Testing and Laboratories and the results of Dope Tests shall be presumed to be scientifically correct. The onus of rebutting this presumption shall be on the Rider concerned.
- (v) Upon application by the Doping Control Officer, the Referrals Committee or the Appeals Body may provisionally suspend a Rider from any or all events or activities organised or authorised by or held under these Rules wherever held pending a decision by the Referrals Committee or the Appeals Body pursuant to Rule 279.
- (vi) The procedure upon the receipt of Dope Test results shall be as set out in this Rule.
 - (a) Any Rider whose "A" sample discloses the presence of a Banned Substance or use of a Banned Method shall be so notified in writing by the Doping Control Officer. The Rider shall have the right to request that their "B" sample be analysed to determine whether that sample discloses the same Banned Substance(s) or use of a Banned Method detected in the "A" sample. The cost of the "B" sample analysis shall be borne by the Rider. Any such request must be made within fourteen days of the said notification to the Rider.
 - (b) A Rider may accept the results of the "A" sample analysis by advising the Doping Control Officer, within fourteen days of the date of the said notification. Notwithstanding such acceptance, the Doping Control Officer may still, at their discretion, make arrangements to have the "B" sample analysed, in which case, the cost of the "B" sample analysis shall be borne by the IHRB.
 - (c) A Rider who has neither accepted the results of the "A" sample analysis nor requested that their "B" sample be analysed within fourteen days of the date of the said notification shall be deemed to have accepted the results of the "A" sample analysis. In this event, there shall be no obligation on the Doping Control Officer to have the "B" sample analysed but the Doping Control Officer may still, at their discretion, make arrangements to have the "B" sample analysed, in which case, the cost of the "B" sample analysis shall be borne by the IHRB.
 - (d) At any "B" sample analysis, other than where the "B" sample is being analysed at the request of the Doping Control

Officer, the Rider concerned and/or their legal representative and/or other representative are entitled to be present at their own expense. A representative of the Doping Control Officer is entitled to be present at all "B" sample analyses.

- (e) If a "B" sample analysis does not disclose the presence of a Banned Substance or use of a Banned Method the entire test shall be considered negative. The Rider shall be notified and no further action shall be taken. Any suspension imposed on the Rider who was tested shall be withdrawn with immediate effect and the cost of the "B" sample analysis shall be borne by the IHRB.
 - (f) Where the "B" sample analysis discloses the presence of a Banned Substance or the use of a Banned Method or where the Doping Control Officer believes that a Doping Offence, that does not involve the provision of a sample, may have been committed, the Rider concerned, shall be notified in writing.
- 279.** (i) Where the Doping Control Officer believes that a Doping Offence may have been committed, the matter shall be referred to the Referrals Committee. The Rider concerned shall:
- (a) be notified that the matter has been referred to the Referrals Committee;

 - (c) be informed of their entitlement to a hearing before the Referrals Committee and to be legally represented at such a hearing.
- (ii) In proceedings before the Referrals Committee or the Appeals Body, any certificate, notice or form shall be, until the contrary is proved, sufficient evidence of:
- (a) the qualifications and authority of any official who carried out, or assisted in the carrying out of, any Dope Test of any Rider who is the subject matter of the proceedings, to carry out, or to assist in the carrying out of, such Dope Test; and
 - (b) the authority of the official who signed the certificate, notice or form to sign that certificate, notice or form; and
 - (c) the facts stated in the certificate, notice or form including, but not limited to, the results of any Dope Test of any Rider.
- (iii) The onus of proving that a Rider has committed a Doping Offence is upon the Doping Control Officer which onus shall be discharged on the balance of probabilities. The Referrals Committee and the Appeals Body shall be entitled to receive such evidence as each thinks fit notwithstanding that the evidence may not be legally admissible in a court of competent jurisdiction.

- (iv) (a) Where the Referrals Committee decides that a Rider has committed a Doping Offence then they shall determine the penalty to be imposed.
- (b) The findings of a prohibited substance in a Rider cannot lead to the disqualification of a Horse.
- (v) The Rider shall have a right of appeal against a decision of the Referrals Committee to the Appeals Body. Such an appeal will be determined under the provisions of Rule 256. The Appeals Body shall have the power to allow any appeal or vary any decision or sanction under appeal. There shall be no appeal of the decision of the Appeals Body.
- (vi) At a hearing before the Referrals Committee or the Appeals Body, the Rider and the Doping Control Officer may be represented, legally or otherwise, and shall have the right to give and call evidence and to address the Referrals Committee or the Appeals Body.

The Rider concerned may make written representations to either or both the Referrals Committee and the Appeals Body.

Failure of the Rider concerned to attend having received notice of the hearing or to answer any question shall not prevent a decision being reached. All hearings shall be in private.

- (vii) The Referrals Committee and the Appeals Body shall have unfettered discretion in all matters coming before them including whether or not to hold a hearing.
- (viii) No proceedings of, or penalty imposed by, the Referrals Committee or the Appeals Body shall be quashed, varied or held invalid by reason only of any defect, irregularity, omission or departure from the procedures set out in accordance with these Rules or in any Regulation relating to the Dope Testing of Riders, provided there has been no miscarriage of justice.

- 280.** (i) Where the Referrals Committee or the Appeals Body determines that a Rider has committed a Doping Offence, they shall apply one or more of the following sanctions:

 - (d) any other sanction the Referrals Committee or the Appeals Body, as the case may be, thinks fit.
- (ii) The above penalties may be applied to a Rider regardless of any other penalty, its duration or timing or whether current or past, howsoever imposed. However, the Referrals Committee and the Appeals Body may take previous penalties imposed into account in making their respective decisions. Confirmation from the IHRB

as to any other previous penalty and the facts and circumstances pertaining thereto shall be, until the contrary is proved, sufficient evidence of any other previous penalty and the facts and circumstances pertaining thereto.

- (iii) The Directors of the IHRB may recognise the anti-doping rules and penalties of the Turf Authority of any country and of other bodies and may take such reciprocal action as they consider necessary in respect of such rules and penalties.

ALCOHOL BREATH TESTING CONCENTRATION LEVEL OF ALCOHOL

Pursuant to Rule 20(xxi) of the Rules of Racing and the Irish National Hunt Steeplechase Rules, the Directors of the IHRB hereby publish that the level of concentration of alcohol referred to in Rule 277(iii) shall be a concentration of alcohol in excess of 22 micrograms per 100 millilitres in breath.

ALCOHOL TESTING STANDARD OPERATING PROCEDURES

The Directors of the IHRB publish procedures on the IHRB website, pursuant to Rule 20(xxi). These procedures should be followed as far as is reasonably practicable. However, any deviation or deviations from the procedures shall not invalidate a finding of an alcohol breath test offence under Rule 277(iii) unless it is shown that the result of any such deviation or deviations was such as to cast real and substantial doubt on the integrity and reliability of such a finding.

ANTI-DOPING PROCEDURES

The Directors of the IHRB publish these procedures on the IHRB website, pursuant to Rule 278 (iii). These procedures should be followed as far as is reasonably practicable. However, any deviation or deviations from the procedures set out therein shall not invalidate a finding of a Doping Offence under Rule 278(ii) unless it is shown that the result of any such deviation or deviations was such as to cast real and substantial doubt on the integrity and reliability of such a finding.

BANNED SUBSTANCES AND BANNED METHODS

Take notice that, pursuant to the Rules of Racing and Irish National Hunt Steeplechase Rules, and in particular the definition of “Banned Substances” and “Banned Methods” contained therein, the Directors of the IHRB, having adopted the World Anti-Doping Agency (“WADA”) Prohibited List International Standard which came into effect on 1 January 2003 as amended from time to time (commonly referred to as the “Prohibited List”) and having approved same for purposes of the said Rules and definitions, hereby notify all concerned of the following, pursuant to the current Prohibited List as published on the WADA website <https://www.wada-ama.org/en/content/what-is-prohibited>

Use of particular substances may be permitted under a Therapeutic Use Exemption in the treatment of particular medical conditions but only with the express permission of the Chief Medical Officer.

TAKING OF SAMPLES FROM HORSES

EQUIPMENT REQUIRED AT THE RACECOURSE SAMPLING UNIT

When a Horse is taken to the Racecourse Sampling Unit for Sample collection, a head collar and lead rope, bucket, scraper, cooler and muzzle should be available for the Horse in the Racecourse Sampling Unit. These must be supplied by the Trainer or their representative. The Horse's Passport must be available at the same time, as the Horse's identity will be verified before sampling.

PROCEDURES FOR SAMPLING HORSES

The following are the procedures for the sampling of Horses published pursuant to Rule 20(v) of the Rules of Racing.

Definitions: In paragraphs 1, 2 and 3 the words Responsible Person means the Trainer or their representative or the Owner or the person in charge of the premises where the Horse is located. In paragraphs 4, 5 and 6 those words shall mean the Trainer or the Owner. In paragraph 7 the words Responsible Person means the Trainer or their representative.

IN ALL LOCATIONS

1. The Horse selected for sampling shall be identified to the IHRB Veterinary Officer or Veterinary Assistant by the Responsible Person. The Responsible Person shall bring the Horse to the Sampling Unit and shall produce the Horse's passport upon request to the IHRB Veterinary Officer or veterinary assistant who shall then identify the Horse against its passport. The IHRB Veterinary Officer or Veterinary Assistant identifying the Horse should initial beside the "Passport ☐ " (box) on the Sample documentation.
2. If the IHRB Veterinary Officer or Veterinary Assistant is not satisfied as to the ability of the Responsible Person because of a lack of command of English to understand the requirements (or procedures) for testing they may request the Trainer or an Authorised Representative to nominate another person to act as the Responsible Person.
3. The urine sample and/or the hair sample is collected by the IHRB Veterinary Officer or Veterinary Assistant in the presence of the Responsible Person and split into an "A" Sample and a "B" Sample, both of which are then sealed in the presence of the Responsible Person. Where blood Samples are collected, the IHRB Veterinary Officer collects the blood Sample in the presence of the Responsible Person and splits it into an "A" Sample and a "B" Sample both of which

are then sealed in the presence of the Responsible Person. The Responsible Person shall then print their name on and sign the sampling record document as a witness to the collection and sealing procedure.

4. The IHRB shall then arrange for the “A” Sample to be sent to the designated Laboratory for analysis and shall retain the “B” Sample in a secure environment. On receipt of the Laboratory Report on the “A” Sample, the Office of the IHRB shall advise the Responsible Person if the Report from the Laboratory indicates that a breach of the Rules governing Prohibited Substances may have been committed and inform the Responsible Person that he/she has the right, within 4 days, to require the “B” sample to be sent to a designated Laboratory for analysis, at the expense of the Responsible Person, in default of which the Laboratory Report will be placed before the Referrals Committee.
5. If the Responsible Person requires the “B” Sample to be sent for analysis, the Office of the IHRB shall arrange for the “B” Sample to be sent to a designated Laboratory. The IHRB will advise the Responsible Person of their entitlement to have themselves, the Owner or a similar suitably qualified person attend the analysis of the “B” sample, should they so wish. On receipt of the Laboratory Report, the IHRB shall advise the Responsible Person of the result of the analysis. If the Report on the “B” Sample also indicates that a breach of the Rules governing Prohibited Substances may have been committed the IHRB shall advise the Responsible Person that the two Laboratory Reports will be placed before the Referrals Committee.
6. If the report on the “B” sample indicates that a breach of the Rules has not been committed, the entire test shall be considered negative, and the Responsible Person shall be entitled to a refund of the cost of the analysis of the “B” Sample.
7. For screening sampling for total carbon dioxide concentration, the Horse will be identified by an IHRB Official, and blood Samples taken for screening by the IHRB Veterinary Officer in the presence of the Responsible Person. These screening Samples will not be split into A and B portions as with conventional regulatory samples. However, if analysis of one or more of these Samples indicates that regulatory sampling is required, this will be undertaken in accordance with this Regulation with the exception that the B portion of the regulatory Sample will always be analysed, and at the same designated Laboratory that conducted the A portion analysis.

SAMPLING UNIT

It is the responsibility of Trainers to ensure that winning Horses are presented without delay to the Sampling Unit for the collection of samples.

Where one of a Trainer's Horses is taken to the Racecourse Sampling Unit, the option exists for the stable employee in charge of the animal to require that a cooler be kept on the Horse while it is detained in the Sampling Box.

SCHEDULE OF PROHIBITED SUBSTANCES AND METHODS

Pursuant to Rule 20(v) of the Rules of Racing and the Irish National Hunt Steeplechase Rules, the Directors of the IHRB publish a schedule of Prohibited Substances, threshold levels where applicable, and prohibited methods on the IHRB website and give notice that each item referred to therein is a Prohibited Substance as defined or a prohibited method within these Rules.

3. The IHRB Representative shall watch the running of all races closely so that they can express their opinion to the Acting Stewards with regard to any incident which may take place during a race, whether there is an objection or not. If they think that an enquiry is desirable, they should inform the Acting Stewards at once.
4. The IHRB Representative shall advise the Acting Stewards on any question which may arise regarding the interpretation of the Regulations and/or Rules, or on any matter of procedure in the holding of a Stewards Enquiry. They shall attend all Stewards Enquiries, take such notes as they consider useful, and after an Enquiry take any further action or make any further report to the Directors of the INHSC as they may consider necessary.
5. Should the Acting Stewards forward any case to the Referrals Committee, it shall be the duty of the Stewards Secretary on duty to ensure that a complete report of the case is forwarded to the Office of the IHRB.

 - (f) The course was satisfactory and not interfered with before racing.
9. The IHRB Representative should complete their report form without delay and furnish this to The Registrar of the INHSC.

ION 2

Notes on Construction of Point to Point Fences

1. The Birch in the fences should be sloping away from the Horses as they take off. This not only helps them to slide over the fence if they hit it hard but also the birch bends downwards when hit. Birch that has been put in vertically and cut at a slope does not have the same effect and causes more falls. This sloping may be achieved in the case of portable fences by digging in the landing side of the frame about three inches. In the case of permanent fences, the top horizontal bars of the frame can be on the landing side of the fence and the bottom ones on the take-off side. Care must be taken that the horizontal bars of the frame, in particular the top back one are strongly attached to the upright and not just nailed on. The nails may pull out if the fence is hit hard so they should either be bolted or wired on to the uprights.
2. It is important that there should be a good artificial apron on the take-off side of the fence so that Horses take off sufficiently in front of the fence to get their knees up before they reach the top of the fence. The take-off edge of the artificial apron should be at least the height of the fence away from the fence.
3. Birch before packing should be six to eight ft. high. If it is higher the butts should be cut off to reduce the length. Thus, after packing the fence, the birch is easier to trim with hedging shears and there are no heavy sticks at the top of the fence, it also makes the work easier.
4. It is not permitted to use a bank or wall in lieu of a wooden frame to support the back of the fence.
5. Where a bank or wall exists behind a bush fence the bush fence must be at least 2ft. 6in. higher than the bank or wall.

ION 3

DIMENSIONS FOR CONSTRUCTION OF POINT TO POINT FENCES

Point to Point Courses

(See also Regulation 9)

The Directors of the INHSC have issued the following instructions regarding the construction and erection of Point to Point fences.

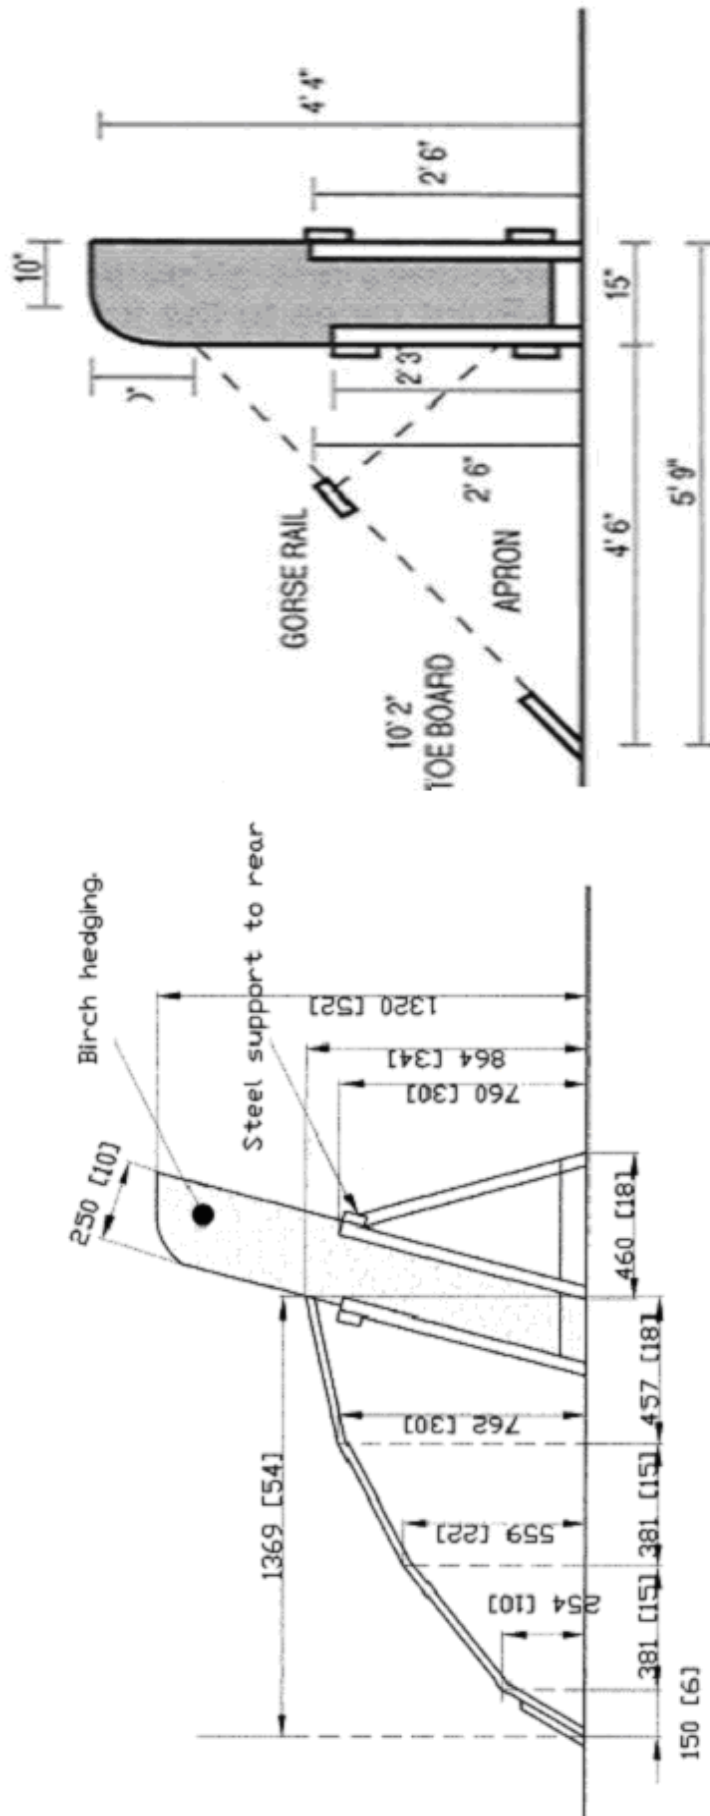

Fences

1. Minimum height 4ft. 4in.
2. In upright type the toe board shall be placed 5ft. 9in. from the back of the frame.
3. In sloping fences, the toe board shall be 5ft. 3in. from the back of the frame.
4. Deleted (August 2022).
5. In upright fences the artificial aprons shall be brought up to within 10in. of the top of the fences and shall be secured by means of a gorse rail firmly attached to the frame.
6. Artificial aprons are mandatory with the exception of banks races and shall be approved in advance by the Inspector of Courses.
7. The tops of the fences should not be left square, but the front edge should be rounded off to leave a flat top of approximately 10in. thick.
8. Fences whose height and rake can be altered by means of an adjustable chain will not be permitted.
9. Toe Boards must be used on all fences. The boards may be either rounded or flat. If flat boards are used, they should be 2 in. thick and 10in. high. If a round pole is used, it should be not less than 9in. in diameter and should have a flat side to prevent Horses getting their toes under it. Poles without a flat side should be sunk into the ground. Where "Easyfix" or "O'Connell" Artificial Aprons are in use, toe Boards must consist of a half round pole.
10. Fences must be well packed, and the birch used must be in good condition. Fence sections must be securely fastened together and firmly anchored to the ground.
11. Sloping fences should be erected approximately 18in. off vertical.

12. Tracks and fences for Saturday meetings will normally be inspected on the previous Thursday and for Sunday meetings on the previous Friday. If for any reason the Inspector refuses to approve the track or the fences, the Hunt committee shall be given 24 hours to rectify the position wherever possible. A second inspection will then be held at the expense of the Hunt. If the Inspector is still not satisfied, the meeting shall be cancelled.
13. The Directors of the INHSC are concerned that many Point to Point Courses are not properly prepared when the Inspector of Courses arrives. It is expected that all fences, wings and artificial aprons be in place, that all boards be adequately painted and that the track be clearly marked out at the time of inspection.
14. REGULATION FENCES:
 - (i) The artificial apron on a Regulation Fence shall not entirely fill the ditch.
 - (ii) It will not be permitted to leave the grass showing between the toe board and the artificial apron and the ditch must either be dug out or the sod turned over, or alternatively sprayed with weed killer. Wood chip could be spread in this area either.
 - (iii) Toe boards should be at least 12 to 14 in. in height and 3 in. thick and the front edge should be rounded. They should be painted a dull orange colour and securely fixed about two in. below ground level and five ft. from the front of the fence.
 - (iv) Regulation fences should normally be between 4ft. 4in. and 4ft. 6in. in height.
 - (v) The depth of fence should be between 15in. and 20in. with the front edge rounded.

Wings

All wings shall be of plastic construction and shall not be less than six metres in length and shall be not less than one foot higher than the fence at the point where wings and fence meet. The first fence shall have on both sides a second plastic wing in place or a plastic rail of similar measurement. Normally wings should be spread by at least three feet, but this figure may be reduced somewhat where wider spread would tend to make Horses on the rail substantially alter their course.

Dimensions for Bush Fences on Point-to-Point Courses.

ION 4

THE FOLLOWING POINTS SHOULD BE NOTED BY PERSONS RESPONSIBLE FOR THE ISSUING OF HUNTERS CERTIFICATES

1. Two copies (original and carbon copy) of each Hunters Certificate should be sent to the Office of the INHSC (the bottom copy should be retained in the Hunters Certificate Book for reference by the person issuing the Hunters Certificates).
2. Full Details should be given on all Hunters Certificates. Failure to do so will result in a delay of Registration.

ION 5

NOTICE TO POINT TO POINT OWNERS / HANDLERS

All Point to Point Owners will be required to complete and submit a Point to Point Owner form to the Office of the INHSC as specified in Regulation 18. Owners, having completed this form on the first occasion will then be issued with a unique reference number. This reference number will be required when an application is made to a Master of a Hunt for a Hunters Certificate.

All Point to Point Handlers will be required to complete and submit a Point to Point Handler form annually, to the Office of the INHSC. Handlers who complete this form will then be issued with a unique reference number. This reference number will be required when an application is made to a Master of a Hunt for a Hunters Certificate.

Please note that a Hunters Certificates will not be Registered if the Owner's and Handler's unique reference numbers are not included on a Hunters Certificate.

Owners & Handlers Point to Point forms are available to download on the IHRB website.

ION 6

COLLECTION OF QRAF LEVY

Receivers of Entries and the Hunt holding the Point to Point Meeting shall be responsible for the collection of the Qualified Riders Accident Fund levy from Owners. (Regulation 23 (b) (viii)).

ION 7

HUNTER CHASE LICENCE

Person's training Horses may apply for a Hunter Chase Licence in order to run Horses in:

- (i) Hunter Steeplechases; or
- (ii) Races that require Horses to hold a Hunters Certificate; or
- (iii) Races where Rule 78 is suspended enabling runners (other than the winner) to retain their Hunters Certificate e.g. Point to Point I.N.H flat races, Cross Country & Banks races.

ION 8

OVERTAKING ON THE INSIDE

Acting Stewards and Riders are asked to note the following guidelines for overtaking on the inside on an unrailed section of the course:

1. Before attempting to pass another Horse on the inside, where the course is unrailed, the Rider should be satisfied that their Horse has the speed to do so. Before reaching the next obstacle, doll or section of running rail, they must be clear of the Horse they have overtaken on the inside and it is their responsibility to ensure that they do not cause interference to the overtaken Horse. Interference caused in this manner may be considered careless riding.
2. The Rider being overtaken on the inside is entitled to hold their line to the inside of the next obstacle, doll or section of rail, but they must not move their Horse across in an attempt to interfere with the overtaking Horse. If they do so, it may be considered intentional interference.

ION 9

JUDGE

The Judge's podium shall be positioned at least seven metres back from and in line with the winning post. The area between the podium and the winning post shall be kept clear to ensure that the Judge has an unobstructed view of Horses passing the winning post.

ION 10

COMMENTARIES

The Clerk of the Course should ensure that the commentator shall not adjudicate on the public address system their version of the placings in the event of close finishes, thereby pre-empting the decision of the Judge. Neither should they make any other comment before, during or after a race which may wrongly interpret or pre-empt the actions of any Official on duty.

ION 11

RACE CONDITIONS

Should a discrepancy arise between the conditions of a race as printed on the entry form and on the racecard, cognisance should only be taken of the entry form. If the issue is still the subject of query, then the Directors of the INHSC shall determine the matter.

ION 12

NOTICE FOR THE USE OF TONGUE STRAPS AT POINT TO POINTS

Tongue straps must be made of either:

- (a) Nylon material
- (b) Non-self-adhesive, crepe/stretch bandages e.g. Lenkelast bandages
- (c) Adjustable synthetic tongue strap with a Velcro closure
- (d) Leather tongue straps

For the avoidance of doubt, rubber elastic bands or self-adhesive bandages e.g. vetrap will not be permitted to be used as tongue straps.

The following guidelines must be complied with if a Tongue Strap is being fitted to a Horse declared to run in a Point to Point Steeplechase.

1. All tongue straps must be looped but not tied around the tongue and secured comfortably around the lower jaw.
2. The tongue strap shouldn't be tied so tightly that blood flow is restricted.
3. The tongue strap should be tied such that the effective width is not less than 15mm so as to avoid a tourniquet effect.
4. Tongue straps must not be secured to either the bit or the bridle due to the risk of damage to a Horse's tongue should the bridle be dislodged in an incident.
5. Tongue straps must be clearly visible at all times
6. The groom in charge of the Horse must inform the IHRB Microchip Official prior to entering the parade ring that the Horse is wearing a tongue strap.
7. Tongue straps must be removed as soon as practical post-race.

ION 13

SHOES & CALKINS

A Horse shall not enter the Parade Ring or run in shoes which have protrusions on the ground surface unless they comply with the following:

Front Shoes

On front shoes, it is permitted to use four No. 2 nails, two inserted on the inside and two on the outside of each shoe, protrusions of which must be limited to $\frac{1}{4}$ in. The use of nails on the front of the shoes and the use of American toe grab plates or those with a sharp flange is forbidden.

Hind Shoes

On hind shoes, it is permitted to use calkins provided they are limited to $\frac{1}{4}$ in. in height. No other protrusions are allowed.

ION 14

Microchip Readers

The Directors of the INHSC recommend that all Point to Point Handlers possess a microchip reader available for their use, to ensure that the microchip(s) implanted in all Horses in their care and control, correspond with the microchip number recorded in that Horses Passport.
