

PENALTY GUIDELINES

The following recommendations have been approved by the Directors of the IHRB in relation to penalties to be imposed for certain breaches and should be adhered to in the interest of consistency.

In the event that the Raceday Stewards deviate from the recommended penalties, a report explaining the reason for the deviation should be sent by the Chairman to the Chief Executive at the end of the day's racing, as part of his Chairman's Report.

Where there is a reference in these Guidelines to a minimum penalty and where there is a relevant record of previous offending, the Raceday Stewards shall consider whether a higher penalty is justified in those circumstances. Also, for breaches of the interference rule, should the riding offence appear particularly egregious or if there are serious or potentially serious consequences arising from the offence, Raceday Stewards are advised to impose sanctions greater than the Guidelines.

Rule/Regulation	Description	Penalty
Regulation R10	Whip Raceday Stewards should refer to the rider's record for the previous 6-months (rolling) when considering penalties.	The Raceday Stewards should impose a penalty in line with the penalty guidelines below – the penalty can be greater than these guidelines for offences other than frequency if they deem it appropriate in the circumstances.
